**BARNES THYROID TEST**

This test was developed by Dr. Broda Barnes, M.D. and is a measurement of the underarm temperature to determine hypo and hyperthyroid states. The test is conducted by the patient in the a.m. before leaving bed - with the temperature being taken for 10 minutes. The test is invalidated if the patient expends any energy prior to taking the test - getting up for any reason, shaking down the thermometer, etc. It is important that the test be conducted for exactly 10 minutes, making the prior positioning of both the thermometer and a clock important.

**PRE-MENSES FEMALES AND MENOPAUSAL FEMALES**

Any two days during the month

**FEMALES HAVING MENSTRUAL CYCLES**

The 2<sup>nd</sup> and 3<sup>rd</sup> day of flow OR any 5 days in a row.

**MALES**

Any 2 days during the month.

You can do the following test at home to see if you may have a functional low thyroid. Use an oral thermometer or a digital one. When you use a digital one, place the probe under your arm for 5 minutes then turn your machine on; continue on for an additional 5 minutes. When using a regular one, shake down the night before.

## A Garden For Wellness

Our goal at A Garden For Wellness is to provide and maintain a good practitioner-client relationship. One way to encourage that relationship is to have clear and precise guidelines. These guidelines can be in forms of printed policies and consents. The items can be bulky and wasteful, as far as ecology is concerned. In an effort to minimize the paperwork we have consolidated our consents and policy acknowledgments to one page. All policies and consents are available to our clients/patients in their entirety at any time in paper or electronic form.

Please sign here to agree that you have read and understand and agree to:

1. The financial policy
2. The cancellation policy
3. The HIPPA consent
4. The Network Spinal Analysis consent
